

IMAGINEAUSTIN

Vibrant. Livable. Connected.

Imagine Austin is our plan for the future. It is the City of Austin's comprehensive plan, which defines a vision and framework for how we want the city to grow and develop. Below are core principles for action to make the future Austin we imagine a reality.

More than 16,000 ideas and contributions from Austinites have helped shape the plan. We invite you to read it and tell us what you think. A final draft plan will be posted online for community review in late September 2011. You'll be able to tell us your priorities for the big projects and investments in the plan.

Provide opportunities and paths to prosperity for all.

Grow as a compact, connected city.

Sustainably manage water and other environmental resources.

Integrate nature into the city.

Develop as an affordable and healthy community.
